

# 72nd European Competition in the 2024/25 school year

## Europa? Aber sicher! - Europe? Of course!

---

### Module 1 (1st to 4th grade)

#### 1. Help in an emergency

In the event of an accident, fire or other danger, you can call the number 112 throughout Europe for help. But who is behind this number? Show us these heroes and how they help!

#### 2. Here I am safe

Do you know the feeling of being completely safe and secure with a special person or in a special place? What can you do to make children, who are new to your class, feel that way?

#### 3. Safety on the way to school

What gives you the security you need on your way to school, what do you need to look out for and where should traffic be better regulated? Take us with you on your daily journey!

---

### Module 2 (5th to 7th grade)

#### 1. Europe - grown fantastically

Show or describe Europe as a fantasy plant worth protecting, which represents the diversity and values of Europe.

#### 2. Traveling in Europe

You might be slow by bike or on foot, but you'll discover a lot. What would you like to protect for the future - and what needs to be done to ensure this?

#### 3. Save the colors of Europe

Our society is as colorful as nature and the world we live in. Discover the colors of Europe and capture them in your work. Dare to break free from representational boundaries!

---

## Module 3 (8th to 10th grade)

### 1. Pop against populism

All over Europe, voices that are directed against our fundamental democratic values are getting louder. What dangers do you see? How can culture counteract this? Become cre-active!

### 2. Being courageous together

It is easier for us to speak out against wrongdoings or help others in tricky situations when we are together. Show examples of civil courage.

### 3. Viruses, worms and trolls

The internet offers practically unlimited possibilities, but there are also dangers lurking. With the "Strategy for a Better Internet for Children", the EU wants to improve online safety. How can you protect yourself and where do you need support?

---

## Module 4 (Upper school)

### 1. Enough food for everybody?

The global population continues to grow, while our planet's resources are limited and unevenly distributed. One aspect is certain: we all need enough to eat. Show how the future food supply in Europe and around the world can be secured.

### 2. Tricked?!

Fake news or AI-generated deep fakes are spreading virally through social media. What happens when people are deceived? Imagine a concrete example and show the possible effects.

### 3. Europe - social and secure?

A stable social safety net has been established in Germany and Europe over the course of decades. However, our society is drifting further and further apart. How can social security be formed in Europe in the future?

---

## Special Task (open for all ages and group sizes)

### Creating peace

There is a lot going on in the world, wars and conflicts are affecting our society. How do you contribute to understanding and reconciliation in your environment?
